# NATURE CONCEPT – MY WAY TO LAYER ANTERIORS WITH CREATION ZI-CT WITH DANIJELA MODRIĆ MASTER DENTAL TECHNICIAN

**It's with great pleasure we can announce Danijela Modrić into the studio with a superb two-day hands-on Creation ceramics experience.**

Over the busy two days you'll spend time with Danijela, gaining valuable knowledge and skills brought together from decades of technical experience. You'll complete an anterior case from start to finish, with mentoring and guidance throughout from Danijela.

*"In our daily work we all struggle with the perfect aesthetic result of natural anterior teeth. It's very difficult to copy nature, and we currently don't have the materials at our disposal to entirely achieve that. Our work will always be recognizable under a certain source of light.*

*What is important when producing these types of restorations? Everything is important, from preparation, material selection, to the shape, colour, and texture.*

*See you all in April 2023."*

**Danijela Modrić is a Master Dental Technician born in Zagreb, Croatia, where she graduated from Zagreb Health School, Dental Technician Programme in 1996, and the Faculty of Dental Medicine in Zagreb, Master Dental Technician programme in 1998.**

At the end of 2015 she founded D&D Dental Design Ltd. for dental technique in Zagreb.

In 2016 she was selected for specialisation and further training by Mr. Willi Geller and attended the Creation Willi Geller training courses, after which she obtained the status of International Instructor.

In 2018, Mr. Sascha Hein chose and invited her to join his team as a certified eLAB Instructor.

## HOW TO FIND US

You can find our office and TechStudio in King Edward House, 1 Jordangate – the entrance to the car park and office is on King Edward Street, simply turn onto King Edward Street and the car park is on the right.
